

Industry Watch

To stay on top of the competition, it is critical to be aware of what is happening in the industry with respect to upcoming:

1. Technologies
2. Modified existing technologies
3. Competitor activities
 - New product launches
 - New product features
 - New technologies
 - New portfolios
 - New investments
 - Recruitment pattern
 - Collaborations
4. Govt regulations specific to your industry
5. Environment regulations specific to your industry, etc.

We at DHI-QUEST watch the industry and provide you with **regular updates at a certain frequency (Monthly, Quarterly, or Yearly) on technologies and markets**. We analyze IP (patents, trademarks, etc.), research publications, conference proceedings, news, SEC filings, etc. and summarize the information with actionable insights.

DHI-QUEST is a global research and advisory company providing strategic advice and ongoing intelligence for emerging markets and technologies.

We help our clients across different functions and roles including R&D, product or process development, strategic planning, marketing and sales (commercial), and corporate strategy teams to discover new opportunities and formulate evidence-based strategies. We embrace client confidentiality and data protection policies.
